A pag. 102 - Tav. XII - Lombardia, e a pag. 128 - Tav. XIII - Lombardia, in corrispondenza dell'età di 32 anni devono essere tolte n. 1240 nubili ed aggiunte n. 1240 coniugate e la stessa correzione deve naturalmente esser fatta nelle colonne relative al complesso dei sessi. In conseguenza dovranno essere corretti i dati delle stesse colonne in corrispondenza del complesso delle età e dei gruppi speciali di età in cui è compresa quella di 32 anni.

La detta rettifica dovrà essere eseguita anche per l'Italia Settentrionale e per il Regno, avvertendo che per quest'ultima circoscrizione la correzione riguarda i nati dopo il 20 aprile 1903.

Per comodità del lettore si riportano qui sotto le cifre che debbono essere sostituite a quelle del testo :

Le circoscrizioni si riferiscono alla data del 21 aprile 1936-XIV.

**2. - Superficie territoriale.** (Tavv. I e IV). — La superficie territoriale si riferisce alle circoscrizioni amministrative esistenti al 21 aprile 1936-XIV.

Per le province per le quali a tutto il 21 aprile 1936-XIV gli uffici del catasto (Ministero delle finanze, Direzione generale del catasto) avevano effettuato, per tutti i comuni, il calcolo delle aree, si sono riportati i dati risultanti dal nuovo catasto geometrico.

Per le province per le quali non sono state iniziate in nessun comune le operazioni del nuovo catasto geometrico, le superfici sono state calcolate dall'Istituto centrale di statistica mediante planimetrazione delle «levate di campagna» dell'Istituto geografico militare, aggiornando i confini a mezzo dei piani topografici dell'VIII censimento della popolazione e con elementi forniti dagli uffici tecnici catastali. Infine, per le province per le quali sono in corso le operazioni del nuovo catasto geometrico, le su-

perfici sono state determinate valendosi in parte delle superfici dei comuni accertate dagli uffici tecnici catastali ed in parte delle superfici dei comuni calcolate dall'Istituto centrale di statistica, mediante planimetrazioni.

**3. - Densità.** (Tavv. I, II e III). — La densità per km<sup>2</sup> di superficie territoriale è stata calcolata in rapporto alla popolazione presente.

**4. - Regioni agrarie.** (Tavv. I, II, III, IV, V, VI e VII). — Le regioni agrarie di montagna, collina, pianura, sono indicate rispettivamente con le lettere M (montagna), C (collina), P (pianura). Mancando una di dette regioni vengono omesse le indicazioni relative. La delimitazione delle regioni agrarie è stata compiuta in base alle notizie contenute nel Vol. XXII, Serie VI, degli « Annali di statistica » *Revisione delle zone agrarie secondo la circoscrizione amministrativa dei comuni in esse compresi al 20 aprile 1931-IX*, Roma, Libreria dello Stato, 1932-x e debitamente aggiornate in base alle variazioni territoriali intervenute sino al 21 aprile 1936-XIV. (Cfr. *Variazioni di territorio, di nome e di confine delle circoscrizioni comunali e provinciali del regno disposte con leggi e regi decreti emanati dal 16 ottobre 1930 al 31 marzo 1934. — Id. id. dal 1 aprile 1934 al 20 aprile 1936*).

Si avverte che a ciascun fascicolo provinciale del Catasto agrario (1929) edito dall'Istituto centrale di statistica, è annessa una corografia con l'indicazione delle circoscrizioni delle zone e regioni agrarie al 21 aprile 1931-IX.

**5. - Classi di densità e classi di superficie.** (Tavv. II, III e IV). — Il raggruppamento dei comuni per classi di densità e classi di superfici è stato eseguito sulla base dei dati riportati rispettivamente nelle colonne 6 e 5 della Tav. I dei fascicoli provinciali. Tali dati sono stati arrotondati per difetto quando la cifra dei decimi era inferiore a 5, per eccesso quando tale cifra era uguale o superiore a 5.

**6. - Centri e case sparse.** (Tavv. I, V e VI). — Il criterio discriminante per riconoscere il carattere di « centro » ad un abitato è stato quello della esistenza di almeno un luogo di raccolta — costituito da una chiesa periodicamente officiata, una scuola, una stazione ferroviaria o tramviaria, un ufficio pubblico, servizi automobilistici, negozi, ecc. — ove sogliono concorrere gli abitanti dei luoghi vicini per ragioni di culto, istruzione, affari, ecc., prendendo però sempre in considerazione sia elementi ambientali — orografia, strade, incroci di strade, fiumi, lontananza da grandi centri, ecc. — che potessero influire sull'attribuzione o meno della qualità di « centro » all'abitato stesso, sia l'ammontare della popolazione.

Per « case sparse » sono state considerate le case isolate in campagna e i piccoli raggruppamenti (casolari, fattorie, ecc.) privi di un luogo di raccolta, a meno che considerazioni speciali non permettessero di ravvisare in questi luoghi dei centri nascenti o in via di formazione.

Per eventuali confronti con la popolazione dei centri e delle case sparse del censimento 1931 occorre riferirsi, per quest'ultimo censimento, alle cifre pubblicate nel Vol. VII « Centri abitati », cifre che sostituiscono quelle pubblicate sia nel Vol. I « Relazione preliminare » (Tavv. I e VI), sia nei fascicoli provinciali del censimento 1931. (Cfr. al riguardo le osservazioni a pag. 36 della citata « Relazione preliminare » e l'avvertenza 2 a pag. VIII del Vol. VII « Centri abitati » del censimento 1931).

**7. - Popolazione presente, temporaneamente assente, residente.** (Tav. I). — La *popolazione presente o di fatto* è costituita dalle persone che al momento del censimento si trovavano presenti nei comuni, sia che avessero in essi dimora abituale o soltanto temporanea.

La *popolazione temporaneamente assente* è costituita da coloro che alla data del censimento si erano assentati temporaneamente dal comune di loro dimora abituale, ma nel quale avrebbero fatto certamente o presumibilmente ritorno entro il 31 luglio 1936-XIV. (Nel censimento del 1931 la data del presumibile ritorno venne, invece, fissata al 31 dicembre 1931-IX).

A tale norma facevano eccezione le seguenti persone le quali dovevano considerarsi temporaneamente assenti anche se la loro assenza si prolungava oltre il 31 luglio 1936-XIV :

- a) tutte le persone, senza eccezione, che, per qualsiasi ragione, si trovavano dislocate in A. O., nonchè i militari di carriera dislocati in Libia e nelle Isole dell'Egeo ;
- b) i militari di leva, richiamati, volontari ;
- c) i militari di carriera della R. Marina, imbarcati e in forza su RR. Navi o su navi mercantili ;
- d) i funzionari statali in servizio all'estero ;

- e) i bambini dati a balia, dalla famiglia, fuori di casa ;
- f) i bambini dati a balia, dai brefotrofi, fuori dai medesimi ;
- g) gli studenti, i collegiali, i convittori, i seminaristi, ecc. lontani dalla famiglia per motivi di istruzione ;
- h) gli appartenenti al personale di convivenze religiose lontani dalle stesse per motivi di istruzione ;
- i) i membri della famiglia allontanatisi per lavori stagionali ;
- l) le persone ricoverate, temporaneamente, in ospedali, case, istituti o stabilimenti di cura, di assistenza, ospizi, orfanotrofi, ecc. ;
- m) i detenuti in attesa di giudizio e i condannati a pena non superiore a 10 anni ;
- n) i membri della famiglia che erano in viaggio, compresi gli addetti alla marina mercantile in navigazione.

Si noti che, a differenza del precedente censimento, l'eccezione è stata estesa oltre che alle persone dislocate in A. O., anche : ai bambini dati a balia dai brefotrofi, fuori dai medesimi ; agli appartenenti al personale di convivenze religiose lontani dalle stesse per motivi di istruzione ; ai membri della famiglia allontanatisi per lavori stagionali.

Per i detenuti si è considerato il limite di condanna a una pena non superiore ai 10 anni (anziché a 20 come nel precedente censimento : Cfr. Istruzioni per gli ufficiali di censimento nel Vol. I « Atti del censimento »).

La *popolazione residente o legale* è costituita dai censiti aventi dimora abituale nel comune sia che alla data del censimento vi fossero presenti o ne fossero temporaneamente assenti.

La popolazione residente viene considerata come popolazione *legale* fino al censimento successivo.

*I militari di leva sono stati considerati come aventi dimora abituale nel comune in cui dimorava abitualmente la loro famiglia o, in mancanza di questa, nel comune di precedente dimora abituale. Nel precedente censimento invece essi si consideravano come aventi dimora abituale nel comune in cui si trovavano per motivi di servizio militare.* Questa differenza di criteri rende meno significativi i confronti con i censimenti precedenti per i comuni nei quali hanno sede importanti guarnigioni militari.

**8. - Famiglia.** (Tavv. VI, VII, VIII e IX). — La famiglia cui si fa riferimento è la *famiglia residente*, cioè quella il cui capo aveva dimora abituale nel comune di censimento, vi fosse presente o ne fosse temporaneamente assente alla data del censimento.

La famiglia comprende le persone *residenti* (presenti o temporaneamente assenti) che siano unite da vincoli di sangue o di affinità o che ne facciano parte per ragioni di servizio (domestici) di lavoro (garzoni e simili) di impiego (istitutori) o in qualità di dozzinanti, o, infine, gli ospiti *residenti* nello stesso comune.

Sono comprese tra le famiglie anche quelle costituite da una sola persona *residente*.

Quando due o più nuclei familiari distinti erano compresi in un solo foglio di censimento, sono stati considerati come formanti un'unica famiglia.

Circa i criteri seguiti per distinguere la famiglia dalla convivenza, cfr. il n. 11 delle presenti avvertenze e il Vol. I « Atti del censimento ». Si avverte che deducendo dalla popolazione residente (col. 6 della tavola VI) il complesso dei membri residenti nelle famiglie residenti (col. 5 della stessa tavola) non si ottiene la popolazione residente delle convivenze, poichè i dati di cui alla col. 5 non comprendono i membri residenti in famiglie il cui capo non ha dimora abituale nel comune.

Indipendentemente dalle variazioni territoriali che possono essere intervenute dal 1931 al 1936, per quanto riguarda le famiglie, non è possibile il confronto dei dati del censimento 1936 con quelli dei censimenti precedenti nei quali le famiglie considerate erano quelle presenti.

**9. - Condizione sociale del capo famiglia.** (Tavv. VII, VIII e IX). — La condizione sociale del capo famiglia corrisponde alla sua posizione nella professione o alla sua condizione non professionale (Cfr. Vol. I « Atti del censimento »).

Per capo famiglia intendesi il censito (residente) indicato come tale nel foglio di censimento.

La condizione sociale del capo famiglia è stata determinata nel modo seguente :

a) *Padroni (o datori di lavoro)*. — Si considerano tali : 1) gli imprenditori, nelle aziende non agrarie ; 2) i conduttori-non coltivatori (cioè coloro che non attendono direttamente ai lavori manuali dell'azienda, o che pur attendendovi, si valgono anche di mano d'opera a salario — escluso il caso in cui questa sia limitata ad un solo garzone) nelle aziende agrarie. Si comprendono quindi : conduttori in proprio, usufruttuari, enfiteuti, affittuari, conduttori a più titoli (solo *non* coltivatori).

Si considerano « *piccoli padroni* » (non artigiani) coloro che esercitano — normalmente senza alcun dipendente od eventualmente con l'ausilio di qualche familiare — una industria o un commercio di mi-

nime proporzioni (ad es. facchini di piazza, tellinai, raccoglitori di stracci, ecc.: Cfr. tabella dei padroni, nel Vol. I «Atti del censimento»);

b) *Artigiani ed assimilati*. — Si considerano *artigiani* i titolari delle botteghe artigiane (sono quindi esclusi i dipendenti dalle botteghe stesse. Cfr. circolare 81/65 C dell'8 aprile 1936, nel Vol. I «Atti del censimento»). Essi comprendono anche i *pescatori* iscritti alla federazione artigiana e contemplati, nella classificazione adottata, nella categoria «agricoltura, caccia e pesca». Nelle avvertenze alle tavole di alcuni fascicoli provinciali è stato erroneamente detto che i pescatori sono compresi sotto la indicazione: «di cui nell'agricoltura», «altri». Essi invece sono compresi nelle cifre che figurano sotto la denominazione «in complesso» (col. 8 della Tav. VII, col. 7 della Tav. VIII e nella riga corrispondente al numero d'ordine n. 2 della Tav. IX).

Si considerano *assimilati agli artigiani* i coloni parziari e i conduttori-coltivatori (conduttori in proprio, usufruttuari, enfiteuti, affittuari, conduttori a più titoli), nonché coloro (figure miste) che sono ad un tempo conduttori-coltivatori e lavoratori (a giornata, a contratto annuo, compartecipanti) nel caso che la figura del conduttore sia economicamente prevalente sulla seconda (Cfr. Vol. I «Atti del censimento»);

c) *Liberi professionisti*. — Si considerano tali quelli che esercitano una libera professione od arte, cioè non alle dipendenze altrui;

d) *Dirigenti*. — Si considerano tali: 1) quelli che esercitano — alle dipendenze altrui — una mansione di stretto carattere direttivo; 2) gli ufficiali di carriera delle forze armate, nonché gli altri impiegati delle amministrazioni pubbliche aventi grado superiore a quello di tenente colonnello o a questo corrispondente; 3) i sacerdoti e i regolari che hanno nel sacerdozio o nella regola un titolo rispondente ad un'attività di carattere direttivo (cardinale, arcivescovo, vescovo);

e) *Impiegati*. — Si considerano tali: 1) quelli che esercitano — alle dipendenze altrui — una mansione di carattere esecutivo, *normalmente* distinta da quella esercitata dagli operai e *generalmente* regolata da un contratto di impiego e retribuita con uno stipendio; 2) gli ufficiali di carriera di grado inferiore a quello di colonnello o a questo corrispondente ed i sottufficiali di carriera; 3) i sacerdoti e i regolari che hanno nel sacerdozio o nella regola un titolo rispondente ad una attività di carattere non direttivo (parroco, prete, frate);

f) *Operai*. — Si considerano tali: 1) quelli che esercitano un mestiere alle dipendenze altrui (anche se nel proprio domicilio) *normalmente* regolato da un contratto di lavoro e retribuito con un salario; nell'agricoltura essi sono: i lavoratori (a giornata, a contratto annuo, compartecipanti), nonché coloro che sono ad un tempo lavoratori e conduttori-coltivatori (figure miste) nel caso che la prima figura sia economicamente prevalente sulla seconda (Cfr. Vol. I «Atti del censimento»); 2) i militari di carriera appartenenti alla «truppa»;

g) *Personale di servizio e di fatica*. — Fanno parte di tale personale: 1) le persone che prestano servizio o esercitano un mestiere di fatica, alle dipendenze altrui (anche di aziende domestiche): ad es. fattorini, uscieri, bidelli, domestici, ecc.; 2) gli addetti al culto in qualità di scaccini, sagrestani e simili;

h) *Altre*. — Raggruppati sotto tale denominazione si considerano quelli di cui è rimasta ignota la posizione nella professione, nonché quelli che risultano in una condizione non professionale (proprietari e benestanti, pensionati, donne attendenti a casa, studenti, in attesa di prima occupazione, invalidi, ricoverati, detenuti, mendicanti, prostitute, ecc.).

Ai militari di leva viene assegnata la condizione sociale che essi avevano prima della chiamata alle armi.

I criteri seguiti per la classificazione secondo la condizione sociale del capo famiglia differiscono sensibilmente da quelli usati nel 1931 e nel 1921.

**10. - Figli residenti non coniugati conviventi col capo famiglia.** (Tav. IX). — Sono stati presi in considerazione i figli (del capo famiglia) residenti (censiti — presenti o temporaneamente assenti — nel comune di dimora abituale) non coniugati (celibi e nubili) e conviventi con il capo famiglia. Le famiglie dei figli (coniugati o vedovi o divorziati) del capo famiglia e con questo conviventi non sono considerate nella tavola.

L'elaborazione dei dati è stata fatta per la prima volta nel 1936.

**11. - Convivenze.** (Tav. X e XI). — Per «convivenza» intendesi l'insieme di più persone che, pur non avendo vincoli di parentela o di affinità, fanno vita comune per scopi religiosi, militari, di istruzione, di assistenza, di cura, di alloggio, ecc.

Per «altre» specie di convivenze si intendono le camerate e baracche di operai o di giornalieri di cam-

pagna, le caserme di pompieri, le case di prostituzione, ecc. Sono state considerate quali convivenze (pensioni) le famiglie nelle quali il numero dei conviventi (dozzinanti) supera il numero dei membri della famiglia in esso compresi i domestici.

I militari ricoverati temporaneamente in luoghi di cura, sono stati censiti in alcuni casi come presenti nel foglio di censimento dell'ospedale o del convalascenziario militare, mentre in altri casi sono stati censiti come presenti — in conformità delle univoche istruzioni impartite — dalla caserma che li teneva tutt'ora in forza. In quest'ultimo caso nella tav. XI non figura alcun malato presso gli "Istituti di cura militari",. Non essendo stato sempre possibile eliminare l'inconveniente segnalato, l'Istituto ha provveduto, in ogni caso, ad evitare duplicazioni od omissioni.

**12. - Età.** (Tavv. IX, XII, XIII e XV). — L'età in anni compiuti va intesa come segue:

- Anni 0: dalla nascita fino a 364 giorni (compiuti);
- » 1: dal 365° giorno (compiuto) fino ad anni 1 e 364 giorni (compiuti);
- » 2: dal 2° anno (compiuto) fino ad anni 2 e 364 giorni (compiuti);
- .....
- » fino a 5: dalla nascita fino ad anni 5 e 364 giorni (compiuti);
- » 6-13: dal 6° anno (compiuto) fino ad anni 13 e 364 giorni (compiuti);
- .....
- » 65-∞: dal 65° anno (compiuto) in poi.

I *gruppi speciali di età* che figurano in calce alle tavole XII e XIII sono stati scelti per i motivi seguenti:

- fino a 5 anni — Non soggetti all'obbligo dell'istruzione elementare.
- » » 9 » — Età non considerate nella popolazione attiva.
- da 6 a 13 » — Soggetti all'obbligo dell'istruzione elementare (1). — Ammissione alle formazioni dei « Figli della lupa » (6-7 anni) e « Balilla » (8-13 anni) e delle « Piccole italiane » (2).
- fino a 14 » — Età non produttiva (1) — Non soggetti alle leggi sulle assicurazioni sociali.
- da 15 a 64 » — Età produttiva. - Obbligatorietà alle assicurazioni sociali.
- 65-∞ — Età non produttiva.
- 14-17 » — Ammissione alle formazioni degli « Avanguardisti » e delle « Giovani italiane » (2).
- 18-20 » — Ammissione alle formazioni dei « Fasci giovanili » (2).
- 21-∞ » — Maggiore età. - Ammissione ai Fasci di combattimento maschili e femminili (2).

I gruppi di età (inferiore a 6, 15, 21 anni) della tav. IX corrispondono rispettivamente a quelli: fino a 5, 14, 20 anni.

Il criterio per l'indicazione degli anni di età seguito nel 1936 corrisponde a quello seguito nel censimento 1931.

**13. - Stato civile.** (Tavv. XII, XIII e XV). — I coniugati e le coniugate comprendono anche i separati e le separate legalmente. Poichè in Italia non esiste il divorzio le cifre dei divorziati si riferiscono ai divorziati all'estero e agli stranieri.

**14. - Stranieri.** (Tavv. XIV e XV). — Sono considerati « stranieri » tutti i censiti non aventi cittadinanza italiana, dovunque nati. Gli apolidi sono stati considerati appartenenti agli stati ai quali si riferiva l'ultima cittadinanza posseduta — o, in difetto, la nazionalità — dichiarata dai censiti stessi.

**15. - Categorie di attività economica degli stranieri.** (Tav. XV). — Le attività economiche sono state raggruppate nelle categorie indicate nella tavola XV.

La *popolazione attiva* comprende gli stranieri presenti in età di 10 anni e più esercitanti una professione, arte o mestiere, compresi, quindi, i coadiuvanti del capo famiglia, o di qualsiasi altro membro della famiglia.

La *popolazione inattiva* comprende tutte le persone di meno di 10 anni di età nonchè i censiti di età superiore di condizione non professionale (compresi in questi anche i pensionati, possidenti, beneficiari) o senza indicazione di professione o in attesa di prima occupazione.

(1) In conformità alla legge 26 aprile 1934, n. 653 non possono essere ammessi al lavoro i fanciulli di età inferiore ai 14 anni.

(2) Le cifre corrispondenti ai gruppi di età 6-13, 14-17, 18-20, 21-∞, riguardanti l'ammissione alle formazioni dei « Balilla », « Piccole italiane », « Avanguardisti », « Giovani italiane », « Fasci giovanili » e « Fasci di combattimento » maschili e femminili, possono non coincidere con quelle considerate nella realtà dalle predette Istituzioni, poichè, nella pratica, sono ammessi alle formazioni suaccennate anche coloro che compiono l'anno entro il corrispondente *anno solare*.

I dati relativi all'«artigianato» sono compresi, per la maggior parte, in quelli relativi all'«industria» e per il resto in quelli relativi ai «trasporti e comunicazioni» e alla *pesca* che fa parte della categoria «agricoltura, caccia e pesca». Essi comprendono sia i titolari delle botteghe artigiane sia gli operai da essi dipendenti.

I confronti con il 1931 non sono possibili per i diversi criteri che hanno presieduto alla classificazione della popolazione per categorie di attività economica.

**16. - Confronti con i precedenti censimenti.** — I confronti col censimento del 1931 e precedenti non sempre sono possibili o non sono sempre corretti e significativi per le seguenti notizie:

— *circoscrizioni territoriali*, quando siano intervenute variazioni territoriali (per le regioni agrarie cfr. anche avvertenza n. 4);

— *centri e case sparse* (cfr. avvertenza n. 6);

— *popolazione temporaneamente assente e popolazione residente* (cfr. avvertenza n. 7);

— *famiglie e condizione sociale del capo famiglia* (i confronti non sono possibili: cfr. avvertenze nn. 8 e 9);

— *stranieri per categorie di attività economica* (i confronti non sono possibili: cfr. avvertenza n. 15).

Vedansi al riguardo anche le «avvertenze generali» dei fascicoli provinciali.

**17. - Notizie non pubblicate ed esistenti presso l'Istituto centrale di statistica.** — L'Istituto centrale di statistica fornisce, \*\* dietro richiesta, le notizie non pubblicate contro il semplice rimborso delle spese vive: di copiatura, di collazionatura, di eventuale elaborazione e di posta.

Le notizie non pubblicate sono elencate nel prospetto seguente in carattere neretto.

Nella colonna «circoscrizioni» sono indicate le circoscrizioni territoriali alle quali i dati si riferiscono. Il numero delle circoscrizioni territoriali per le quali non sono state pubblicate le notizie disponibili, è stampato in neretto. Per rendere più agevole la ricerca delle circoscrizioni territoriali, queste sono state contraddistinte con un numero progressivo secondo l'ordine seguente:

1. Frazioni di censimento. — 2. Singoli comuni. — 3. Comune capoluogo di provincia. — 4. Comuni con almeno 50.000 abitanti. — 5. Zone e regioni agrarie. — 6. Province. — 7. Compartimenti. — 8. Ripartizioni geografiche. — 9. Regno.

I dei fascicoli provinciali del precedente censimento del 1931 (Vol. III). — (4) Date le speciali condizioni nelle quali si è svolto il censimento del 21 aprile 1936-XIV, in conseguenza della guerra in A. O., si è ritenuto conveniente di formare una popolazione speciale costituita dai presenti alla data del censimento e dagli assenti temporaneamente in A. O., nella Libia e nei Possedimenti, per avere una cifra che, meglio della popolazione presente del 1936, si presti, per quanto riguarda la popolazione maschile, al confronto con la popolazione presente del 1931. Cfr. anche «Avvertenze generali» n. 7 dei fascicoli provinciali.

\* Per le tavole segnate con asterisco si posseggono anche i dati relativi al complesso di tutti i comuni fino a 49.999 abitanti.
