AVVERTENZE

I dati esposti nel presente volume riguardano le « ditte » in riferimento alle varie attività economiche. Il volume consta di due tomi: il tomo 1 comprende i dati relativi allo Stato e alle singole Regioni; il tomo 2 comprende i dati riguardanti le singole Province. Le circoscrizioni territoriali si riferiscono alla data del III Censimento generale dell'Industria e del Commercio (5 novembre 1951).

Per l'esatta interpretazione dei dati riportati nelle tavole statistiche contenute nei due tomi si espongono, qui di seguito, i criteri in base ai quali si sono definite le unità di censimento con riferimento anche ai relativi caratteri considerati nelle tavole, nonché i criteri adottati per la classificazione delle attività economiche. Si fa presente a tal fine che ulteriori notizie particolareggiate sono contenute nelle disposizioni emanate con la legge 2 aprile 1951, n. 291 sul Censimento, nelle norme per l'esecuzione della predetta legge, nonché nelle apposite istruzioni predisposte per l'esecuzione del Censimento, che formano oggetto del volume concernente gli « Atti del Censimento ».

1. - Ditta. — Per comodità di espressione, ed analogamente a quanto praticato nel precedente Censimento ed in altre rilevazioni, viene usato il termine « ditta » in luogo e come sinonimo di impresa (privata) od ente pubblico con finalità economiche.

Ai fini del Censimento si intende pertanto per « ditta » l'unità giuridico-economica costituita dall'organizzazione dei fattori produttivi in funzione della produzione di beni e servizi effettuata allo scopo del conseguimento di un profitto da parte di un imprenditore.

Le ditte del settore industriale sono distinte in ditte artigiane e non artigiane. Sono considerate artigiane le ditte, di norma individuali, aventi una sola unità locale, che esplicano un'attività produttiva di beni materiali o di prestazione di servizi anch'essi di natura materiale, di ordine artistico o comune e il cui titolare accentra tutte le funzioni inerenti alla gestione, impiegando la propria opera in modo continuativo nella lavorazione ed eventualmente nella istruzione degli apprendisti, senza o con l'aiuto di familiari e o di estranei; questi ultimi, in numero variamente limitato, in rapporto alle varie specie di attività esercitata.

In relazione a tale definizione, nel questionario generale di ditta si sono inseriti alcuni quesiti tendenti ad accettare concretamente i caratteri distintivi dell'impresa artigiana quali, ad esempio, quelli relativi al carattere della produzione (produzione non in serie), alla partecipazione del titolare al lavoro manuale della azienda, ecc. Allo scopo di delimitare ulteriormente i caratteri dell'impresa artigiana si è tenuto conto, inoltre, di un apposito elenco, predisposto in precedenza, relativo alle attività che potevano essere svolte in forma artigianale.

Nelle industrie estrattive e in quelle relative alla produzione e distribuzione di energia elettrica e gas e distribuzione di acqua non figurano ditte artigiane.

I dati riportati nel presente volume sono comprensivi sia delle ditte artigiane, come ora intese, sia delle ditte non artigiane. Nella tavola 2A del tomo 1 i dati delle ditte artigiane sono esposti distintamente da quelli complessivi delle ditte.

È da avvertire, infine, che nel numero delle ditte del ramo del commercio non sono comprese quelle riguardanti il « commercio ambulante ». Si precisa, però, che non sono considerati commercianti ambulanti i venditori dei mercati all'ingrosso, i venditori in banchi fissi nei mercati al minuto coperti, in chioschi, baracche e simili fissati stabilmente al suolo i cui dati, pertanto, sono compresi nella presente pubblicazione.

2. - Unità locale. — È costituita dall'impianto o dal corpo di impianti situato in un dato punto del territorio, dove la ditta effettua materialmente le attività intese alla produzione di beni o alla prestazione di servizi; ne consegue che una medesima ditta può avere una o più unità locali. Le unità locali vengono distinte, a seconda del genere di attività svolta, in « unità operative », cioè stabilimenti, laboratori, miniere, cave, botteghe, negozi, e simili e in « unità amministrative », cioè uffici direttivi (tecnicici e amministrativi) aventi sede distinta da quella delle unità operative.

Per estensione della definizione, relativamente all'attività edilizia e all'installazione d'impianti, come unità locali sono considerate il complesso dei cantieri di una stessa ditta dislocati nel medesimo Comune o l'insieme degli impianti gestiti dalla stessa ditta per l'esercizio di specifiche attività e dislocati nello stesso Comune; per l'attività dei trasporti (esclusi i trasporti aerei) e delle comunicazioni, l'unità locale si identifica nel complesso degli impianti e servizi gestiti dalla medesima ditta in uno stesso Comune; per i trasporti aerei, nel complesso degli aeromobili, impianti, depositi, ecc. gestiti dalla stessa ditta in tutto il territorio nazionale.

3. – Classificazione delle attività economiche. — La classificazione delle attività economiche è quella adottata nelle statistiche ufficiali italiane e si conforma, con gli opportuni adattamenti, alla corrispondente classificazione proposta in sede internazionale.

Detta classificazione è basata sul criterio di raggruppamento delle unità locali secondo caratteri comuni relativi al genere di prodotti fabbricati o di servizi prestati.

Le varie attività economiche sono raggruppate in dieci grandi settori denominati « rami »; ogni ramo è ripartito in « classi » e queste, a volte, in « sottoclassi »; ogni classe e sottoclasse, infine, è ulteriormente articolata in « categorie », le quali costituiscono le componenti fondamentali della classificazione.

4. – Classificazione delle ditte e delle unità locali per attività economica. — In relazione all'accennato criterio di classificazione delle attività economiche, la classificazione delle ditte secondo l'attività economica è stata limitata ai rami, alle classi e sottoclassi che, essendo raggruppamenti di ordine superiore, permettono di inquadrare più univocamente le ditte secondo l'attività esercitata. Nel caso di ditte aventi attività comprese in più rami, classi o sottoclassi, esse sono comprese, con tutti gli addetti delle unità locali dipendenti, nel ramo, classe o sottoclasse di attività prevalente risultante in genere dalla stessa dichiarazione dei censiti.

La classificazione delle unità locali per rami e classi di attività economica è effettuata sempre in base al criterio dell'attività unica o prevalente svolta nelle unità locali stesse, indipendentemente dalla classificazione delle rispettive ditte. Pertanto, mentre per le ditte aventi unità locali la cui attività riguarda un solo ramo o una sola classe o sottoclasse o categoria si ha coincidenza nella classificazione delle ditte e delle unità locali, tale corrispondenza non sussiste allorchè più unità locali di una stessa ditta esplicano attività inerenti a rami o classi differenti. A tal fine si fa presente che nella tavola 3 del tomo 1 e nelle tavole della sez. III del tomo 2 sono poste in evidenza le unità locali operative appartenenti a classi di attività economica diversa da quella nella quale è classificata la relativa ditta.

Le unità locali amministrative sono classificate, di massima, in base alla attività economica esercitata dalla ditta. Le unità amministrative (filiali, uffici amministrativi, ecc.) adibite, esclusivamente o prevalentemente, al servizio di unità operative, sono classificate in base alla attività economica (unica o prevalente) esercitata dalle predette unità operative.

Nelle tavole del presente volume, per ragioni di carattere tipografico la denominazione delle classi e delle sottoclassi è indicata in forma sintetica: le denominazioni complete di queste, nonché le singole categorie inquadrate in ciascuna classe o sottoclasse, risultano dall'apposito « Allegato ».

5. – Classificazione delle ditte per Regione e Provincia. — Per quanto concerne la classificazione delle ditte per circoscrizioni territoriali (Regione o Provincia) è da avvertire che sono attribuite ad una data circoscrizione le ditte aventi sede in un Comune della circoscrizione stessa, anche se alcune o tutte le unità locali dipendenti (esclusa quella riguardante la sede della ditta) alla data del Censimento risultavano in altra o altre circoscrizioni. Di conseguenza nel numero delle ditte di una qualsiasi Regione o Provincia non sono comprese quelle che, pur avendo una o più unità locali nella Regione o Provincia considerata, hanno la sede in un'altra Regione o Provincia; per converso, le unità locali dislocate in circoscrizione diversa da quella ove ha sede la ditta alla quale esse appartengono, figurano nella circoscrizione sede di quest'ultima.

6. – Attività economiche rilevate dal Censimento. — Sono state rilevate tutte le attività inquadrate nei rami 2, 3, 4, 5, 6, 7 e 8; sono state escluse, invece, tutte le attività del ramo 1 (Agricoltura, silvicoltura, caccia e pesca). Per quanto riguarda i rami 9 (Attività e servizi vari) e 10 (Pubblica Amministrazione e istituzioni sociali varie), la rilevazione è stata limitata alle seguenti attività:

a) Ramo 9 — categoria 9.02.01 (Imprese dello spettacolo) appartenente alla classe 9.02 (Attività ricreative e affini); classe 9.03 (Servizi per l'igiene e la pulizia).

b) Ramo 10 — categorie 10.02.07 (Stabilimenti idroterapici e idrotermali) e 10.02.11 (Farmacie) appartenenti alla sottoclasse 10.02 C (Servizi sanitari) inquadrata, a sua volta, nella classe 10.02 (Servizi per l'istruzione, la previdenza, l'assistenza e la sanità pubblica).

Sono state rilevate tutte le unità di censimento, anche quelle di dimensioni minime o con attività svolte all'aperto, nonché quelle inattive alla data di censimento perché a ciclo stagionale o comunque per causa temporanea. Sono state escluse le unità dipendenti dal Ministero della Difesa, nonché quelle relative ad attività svolte a domicilio per commissioni di fabbricanti e commercianti.

7. – Forma giuridica delle ditte. — Le ditte, in relazione alla loro forma giuridica, sono distinte in ditte individuali, società (per azioni, cooperative, in accomandita, in nome collettivo, a responsabilità limitata e altre) ed enti (statali, di diritto pubblico, altri).

Nel numero delle società sono comprese anche le società costituite all'estero aventi nel territorio dello Stato una o più sedi secondarie (unità locali) con rappresentanza stabile.

Le società per azioni comprendono anche le società con partecipazione dello Stato o di enti pubblici e le società di interesse nazionale ; le società cooperative comprendono le società cooperative a responsabilità limitata e quelle a responsabilità illimitata ; le società in accomandita comprendono le società in accomandita semplice e quelle in accomandita per azioni ; la voce « altre » raggruppa le società semplici e le società mutue assicuratrici.

Gli Enti statali e gli Enti di diritto pubblico comprendono le Ferrovie dello Stato, l'Azienda dei telefoni dello Stato, i Monopoli di Stato, le Banche, l'Istituto di ricostruzione industriale (I.R.I.), l'Istituto immobiliare italiano, le Regioni, le Province, i Comuni, ecc.

Gli « altri » Enti (persone giuridiche) comprendono gli Enti di beneficenza, i Circoli ricreativi assistenziali lavoratori (C. R. A. L.), le Associazioni con finalità economiche, ecc.

Tutti i predetti Enti, i cui dati sono stati rilevati in occasione del Censimento e che figurano nel presente volume, esplicano una qualsiasi attività nell'industria, nei trasporti e comunicazioni, nel commercio, nel credito e assicurazione o nei servizi.

8. - Addetti. — Il numero di addetti indicato per ciascuna ditta comprende tutto il personale, fisso o saltuario, anche se assente alla data di censimento per servizio, licenza o malattia, occupato nella sede centrale della ditta stessa, nei dipendenti stabilimenti, esercizi e simili, negli uffici amministrativi e commerciali non annessi ai predetti stabilimenti ma facenti parte in ogni caso della ditta, nonchè quello addetto a tutte le altre unità locali dipendenti (magazzini, depositi, ecc.).

Gli addetti riguardano le seguenti categorie :

a) *imprenditori, gerenti, ecc.* — Per le ditte individuali, il titolare o i titolari dell'azienda o della ditta o della licenza d'esercizio, sempre che partecipino direttamente alla gestione ; per le società, la persona o le persone che risultano consiglieri delegati, ecc., dagli atti amministrativi della società ;

b) *familiari coadiuvanti* — Le persone di famiglia, non necessariamente coabitanti o viventi a carico del titolare dell'azienda, il cui rapporto d'impiego non è regolato in base a contratti di lavoro ;

c) *cooperatori* — I lavoratori soci di cooperative di produzione e lavoro, i quali come corrispettivo dell'opera prestata non percepiscono una remunerazione regolata da contratti di lavoro, bensì un compenso proporzionato alla prestazione, nonchè una quota parte degli utili dell'azienda ;

d) *dirigenti* — Coloro che svolgono mansioni direttive aventi responsabilità ai fini della gestione dell'azienda ;

e) *impiegati* — Coloro che svolgono mansioni direttive non aventi, però, responsabilità ai fini della gestione dell'azienda, o mansioni di concetto o d'ordine ;

f) *categorie speciali* — I lavoratori che godono del trattamento previsto dal R. D. L. 13 novembre 1924, n. 18251 e il cui rapporto di lavoro è regolato dagli accordi interconfederali del 30 marzo e 23 maggio 1946, del 27 ottobre 1947 e dalle particolari successive disposizioni dei contratti di categoria, quali : capotreno di laminazione, contromaestro, maestro di più fornì di riscaldo, assistente tessile, caposquadra, marcatempo, ecc. ;

g) *operai specializzati, qualificati, comuni e manovali* — I lavoratori con mansioni manuali richiedenti competenza più o meno specifica ;

h) *apprendisti* — I lavoratori assunti per apprendere le mansioni di impiegato d'ordine, operaio o subalterno richiedenti un certo tirocinio (maschi al disotto di 21 anni e femmine al disotto di 20 anni) ;

i) *altro personale* — Quello, non compreso nelle categorie precedenti, addetto alla vigilanza, alla custodia, ai servizi interni ausiliari, ecc..

9. - Diffusione territoriale delle ditte. — Sono considerate a diffusione comunale le ditte che esplicano la loro attività nell'ambito del territorio di un solo Comune ; a diffusione provinciale quelle che hanno unità locali in più Comuni appartenenti però alla medesima Provincia ; a diffusione regionale quelle che hanno unità locali in Comuni facenti parte di più Province comprese in una sola Regione ; a diffusione nazionale quelle che hanno unità locali in Comuni appartenenti a Province di Regioni diverse.

Circa il numero degli addetti, si fa presente che nella tav. 4 del tomo 1 e nella Sezione 4 del tomo 2, oltre al numero complessivo degli addetti è stato posto in evidenza il numero degli addetti alle unità locali della Provincia sede della ditta.

È da notare che in alcuni casi, rilevabili dalle predette tavole, il numero complessivo di addetti appartenenti a ditte a diffusione regionale o nazionale è uguale a quello degli addetti alle unità locali della provincia sede della ditta. Ciò è dovuto al fatto che sono state rilevate anche le unità locali inattive alla data di censimento e quelle i cui addetti prestavano prevalentemente la propria attività in altre unità locali.

10. - Territorio di Trieste. — I dati relativi al Territorio di Trieste figurano compresi nelle tavole del presente volume : nelle tavole regionali i dati in parola seguono quelli del Friuli - Venezia Giulia ; nelle tavole provinciali seguono quelli della provincia di Udine.

11. - Segni convenzionali. — Nelle tavole del presente volume si è adoperata la linea — quando il fenomeno non esiste oppure quando il fenomeno esiste ma i casi non si sono verificati.
